[linkedin.com/in/GiriVardhanReddy](#)

A final year graduate who is passionate on learning and seeking corporate experience to imply the skills learnt through educational knowledge and to improve the skills into expertise goals. Young and matured individual with developed skills and personal attributes that will support the transition from education to full-time development.

SKILLS

Programming Languages	C, java, Python, Data Structures
Database	SQL, MongoDB.
Web Technology	HTML, CSS, JavaScript, React.js
Soft Skills	Communication skills, Punctuality, Adaptability, Leadership.

PROJECTS

Real Time Voice Translation

- Developed a desktop application for real-time voice translation using advanced machine learning techniques. The app supports cross-lingual communication by directly translating speech between languages while preserving emotional tone and natural expression. Designed to be platform-independent (Windows, Linux, Mac), it features a user-friendly interface and provides accurate, low-latency translations for seamless interaction.

Dictionary React Application

- Developed a responsive dictionary application using React, providing users with word meanings, parts of speech, and additional definitions. The app features a clean, intuitive interface for quick navigation and searches. Designed to enhance vocabulary learning with an interactive, user-friendly experience.

Employee Attendance

- Developed an Employee Attendance Management System using SQL for database management. The application efficiently tracks and stores employee attendance records, ensuring accurate and organized data. Designed with a focus on reliability and ease of use, it streamlines attendance monitoring for business.

EDUCATION

Bachelor of Technology in Computer Science and Engineering
